

TRIGG TC COUNTY

#TRIGGSCHOOLS

Dear Wildcat Family,

I know many of you are anxious about our students' return to school, on Wednesday, August 26th, during these unprecedented times. Let me assure you that as Trigg County Schools prepares for the opening of school, our number one priority is the health and safety of our students, staff, and community; which is why our Return to School Plan was created using guidance provided from the Kentucky Department of Education, Kentucky Department of Public Health, our local health department, and the Center for Disease Control.

Please understand that our plans may and probably will modify as more is learned about the COVID-19 virus and the ever-changing guidelines we receive are updated from governmental agencies to keep our school community safe.

During this new normal, parents will be asked to choose between two (2) instructional models: a traditional in-person model or an at-home virtual model.

Students enrolled in the Traditional Model will return to campus and classrooms on a regular schedule with in-person instruction.

Parents may choose for their child(ren) to attend school virtually, this option is reserved for families that feel in-person instruction is not in the best interest of their child(ren).

I hope that these expectations and guidelines help you and your family to make a well informed decision for your student(s) for the upcoming school year.

Parents who wish to enroll in the Virtual Learning Academy are asked to fill out the commitment form on their Parent Portal by Friday, July 24 so that schools can begin planning for the upcoming year.
